PROJECTS

Listening Lobby   **October 2021 - Present**
- Web app built with React, Node.js, and Socket.io.
- Using Apple Music and Spotify's API, Listening Lobby allows users to listen to their favorite music together with friends using cross platform functionality.
- User experience includes private lobbies, messaging, and invites.

Blur Bar   **August 2021 - Present**
- Google Chrome Extension built through Javascript, HTML, CSS, and Chrome's Api.
- Allows users to embed an adjustable blur bar into YouTube's video player to hide embedded subtitles.
- Verbose pop-up settings and controls with 200+ installs and daily active users.

WORK EXPERIENCE

California State University, Long Beach   **2023-Present**
Instructional Student Assistant   *Long Beach, CA*
- Thoroughly grade class projects and exams.
- Proctor exams with 100+ students.
- Conduct office hours to help assist students with course materials including:
    - C++
    - Linux
    - Algorithms

Martin Fisher Photography   **2016-2022**
Lead Photographer/Editor/Owner   *Costa Mesa, CA*
- Analyzed website insights through Google Analytics. Successfully increased users 'time on page' by 20% by overhauling the landing page experience via design changes.
- Led and managed a small team as a main photographer for weddings.
- Clearly and concisely coordinated group photos in high stress situations.
- Developed an automation program in Java using the webdriver Selenium to automate local advertisement posting.
